

SBT shipped many accident/severely crashed cars as per jpcenter.ru and carvx.jp

Importation of these cars are prohibited.

At MOC (Ministry of Commerce), many tampered Auction Sheets of accident cars have been submitted for import permit approval. MOC don't check its authenticity before approving permit to import the car.

SBT Ltd, Japan shipped cars to many showrooms.

MOC must investigate the auctions sheets since it was introduced.

We checked 105 cars imported by Mahacar, we found 92 are accident and 9 are grade 3 as per jpcenter.ru . THE LIST IS NOT COMPLETE.

SBT shipped over 2000 cars last year.

SBT didn't and will not sue Salim Auto because we are revealing the truth. Many dealers import from SBT. Salim Auto don't import from SBT.

Our competitors market their cars by making baseless and false comments on Salim Auto. We challenge our competitors by offering Rs 1,000,000 to mention one accident car with chassis number and plate number imported by Salim Auto.

Proving accident car based on tampered auction sheet is very easy.
